Order

Motion to Dismiss
Granted

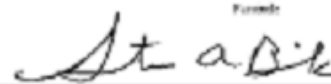

The Motion to Dismiss was set for hearing on 12/24/2009 at 10:00 AM in Department 17 before the Honorable Steven A. Brick. The Tentative Ruling was published and has not been contested.

IT IS HEREBY ORDERED THAT:

The tentative ruling is affirmed as follows: Motion of Plaintiffs and Defendant to dismiss this putative class action under CRC 3.770 is **GRANTED**. As expressly agreed by the parties, the Court maintains jurisdiction to enforce the terms of the settlement under C.C.P. § 664.6. Defendant's obligations under paragraphs 1, 2, and 3 appear to be open ended but the compliance procedures in paragraph 4 and 5 appear to be limited to the 18 months from December 17, 2009, through June 17, 2011. The Court will retain jurisdiction under C.C.P. § 664.6 to address issues regarding enforcement of the terms of the settlement that are brought to its attention by way of the filing of a motion on or before August 31, 2011.

The entire Complaint is dismissed.
