**INTRODUCTION**

As this Court is aware, there have been a flurry of lawsuits filed as a result of the Medi-Cal payment reductions. Plaintiffs filed their Motion for Preliminary Injunction on February 2, 2009. Oral argument was held on February 23, 2009. The Court granted the preliminary injunction on February 27, 2009. Defendant now files this Motion to Alter or Amend, and Clarify the Order on the grounds listed below.

**ARGUMENT**

**I. THIS COURT IS AUTHORIZED TO ALTER, AMEND OR VACATE ITS ORDER GRANTING PLAINTIFFS’ REQUEST FOR PRELIMINARY INJUNCTION DATED FEBRUARY 27, 2009**

Rules 6 and 59(e) of the Federal Rules of Civil Procedure provide that this Court, on motion by a party, may alter, amend or vacate a judgment. Alter or amend means “a substantive change of mind by the court.” *Miller v. Transamerican Press, Inc.*, 709 F.2d 524, 527 (9th Cir. 1983). In addition, this Court may reconsider, vacate or set aside its judgment. *Ortiz v. Gaston County Dyeing Machine Co.*, 277 F.3d 594, 597, n. 1 (1st Cir. 2002); *Collins v. Morgan Stanley Dean Witter*, 224 F.3d 496, 502 (5th Cir. 2000); *Turner v. Burlington Northern Santa Fe R.R. Co.*, 338 F.3d 1058, 1063 (9th Cir. 2003).

The district court has considerable discretion in considering a rule 59(e) motion. The grounds for a motion to alter, amend or vacate are, generally, (1) to correct “manifest error of law or fact upon which the judgment is based,” (2) “newly discovered or previously unavailable evidence,” (3) to prevent “manifest injustice,” and (4) an intervening change in the “controlling law.” *Turner v. Burlington*, 338 F.3d at 1058, 1063. Finally, challenging the district court’s analysis of evidence is proper pursuant to a rule 59(e) motion. *Tipati v. Henman*, 845 F.2d 205, 206, n. 1 (9th Cir. 1988).

In the matter at hand, the Court committed manifest error of law or fact in the Order granting Plaintiffs’ request for preliminary injunction by: (1) finding that the

1 California Legislature had a duty to consider “any of the relevant factors” prior to  
2 the implementation of AB 1183, see Order, 9:2-3; 10:1-3;12:23-24; (2) finding that  
3 the Legislature did not consider any of the said relevant factors, *see* Order, 10:7-28;  
4 12:14-18; and (3) improperly analyzing the evidence regarding the aggregate  
5 amount of Medi-Cal reimbursement for all drugs, including multi-source drugs.

6 **II. THE COURT COMMITTED MANIFEST ERROR OF LAW OR FACT BY**  
7 **FINDING THAT THE LEGISLATURE HAD A DUTY TO CONSIDER ANY OF**  
8 **THE RELEVANT FACTORS**

9 The Order granting Plaintiffs’ request for preliminary injunction dated  
10 February 27, 2009, establishes a new judicial rule that a state Medicaid agency  
11 cannot implement a reimbursement change mandated by its state Legislature, even  
12 if the state Medicaid agency has conducted a formal rate analysis or study and  
13 determined that the reimbursement change fully complies with federal Medicaid  
14 law, if the Legislature did not in fact consider the “relevant factors” prior to passing  
15 the statute, see Order, 9:2-3; 10:1-3;12:23-24. Defendant has been unable to find  
16 any previous court decision invalidating a statutorily mandated Medicaid provider  
17 payment change solely on the basis that a state legislature failed to conduct the  
18 access and/or the efficiency, economy, and quality of care (EEQ) analysis pursuant  
19 to 42 U.S.C. § 1396a(a)(30)(A) (hereinafter § (a)(30)(A)), especially when the state  
20 agency has done an analysis and determined that the payment change complies with  
21 federal law.

22 In fact, a review of the Order itself supports Defendant’s contention. In  
23 discussing the Ninth Circuit ruling in *Orthopaedic*, this Court cited the following  
24 conclusion from the Ninth Circuit:

25 [T]he **Director** must set hospital outpatient reimbursement  
26 rates that bear a reasonable relationship to efficient and  
27 economical hospitals’ costs of providing quality services,  
28 unless the **Department** shows some justification for rates that  
substantially deviate from such costs. To do this, the  
**Department** must rely on responsible costs studies, its own or

1 others', that provide reliable data as the basis for its rate  
2 setting.

3 See Order, 7:11-19; emphasis added.

4 The Order goes on to state,  
5 Whatever else its effect may have been, it is clear that Sanchez  
6 v. Johnson, 416 F.3d 1051 (9th Cir. 2005) left undisturbed the  
7 rule announced in *Orthopaedic II/III* that § 30(A) creates  
8 duties on behalf of the **Department**, i.e., the duty to consider  
efficiency, economy, and quality of care when establishing  
reimbursement rates.

9 See Order, 8:3-6; emphasis added.

10 Further, the Ninth Circuit in *Orthopaedic II/III* stated, "the Department of  
11 Health Services of the State of California, is the state agency responsible for the  
12 administration of California's version of Medicaid, the Medi-Cal program."  
13 *Orthopaedic Hospital v. Belshe*, 103 F.3d 1491 at 1493. The Ninth Circuit went on  
14 further to state that "California's state plan requires the Department to develop an  
15 evidentiary base or rate study . . .," *Orthopaedic Hospital*, 103 F.3d at 1494, and  
16 concluding with "the state plan **also allows the legislature to adjust the rates** so  
17 long as the requirements of 42 C.F.R. Part 447 are met." *Id.*, emphasis added.

18 Inexplicably, this Court then concluded that the Legislature has a duty to  
19 consider these same factors, in direct contravention to the findings in both  
20 *Orthopaedic II/III* and *Sanchez*. This Court erroneously concluded that  
21 "Orthopaedic II/III [held] that the body responsible for rate setting must consider  
22 the relevant factors contemporaneously with the adoption of the rates," see Order,  
23 12:14-16.

24 There is nothing in federal Medicaid law supporting the proposition that for a  
25 state law regarding Medicaid reimbursement to be valid, the state legislature<sup>1</sup> must  
26 analyze or otherwise consider the access or EEQ criteria in some manner, and must

27 \_\_\_\_\_  
28 <sup>1</sup> As noted by this court, "the body responsible for the rate setting."

1 do so “contemporaneously with the adoption of the rates.” Moreover, the Order is  
2 unclear on what would be sufficient for the Legislature to have adequately  
3 considered.

4 If there is a legal obligation in § (a)(30)(A) to conduct a study, analysis, or  
5 give some sort of consideration of “EEQ” in making rate changes, the federal  
6 Medicaid law is clear that any such obligation would not be on a state’s legislature,  
7 but rather on a state’s single state agency.

8 Specifically, 42 United States Code § 1396a(a)(5) provides that a State Plan  
9 must “provide for the establishment or designation of a single state agency to  
10 administer or to supervise the administration of the plan.” Federal regulations  
11 implementing this statute specify that it is the “single state agency” that is to  
12 “administer or supervise the administration of the plan.” Thus, if § (a)(30)(A)  
13 requires a state to do a study or analysis before a change in reimbursement is  
14 implemented, then that responsibility would be on the single state agency. In  
15 California, the single state agency is the Department, not the Legislature.

16 The Department’s position is supported by both statute and case law. In  
17 *Orthopaedic*, the Ninth Circuit held that the requirements of section § (a)(30)(A)  
18 are “more flexible” than the requirements of the repealed federal statute commonly  
19 known as the Boren Amendment, which required cost based rates for hospitals and  
20 nursing facilities.

21 However, the federal Medicaid law was clear that the responsibility for doing  
22 the required findings was that of the single state agency. Federal regulations  
23 implementing the Boren Amendment specified that it was the responsibility of the  
24 state agency to make findings that payment rates were reasonable and adequate as  
25 required by the Boren Amendment. See 42 CFR § 447.253(b). In *Wilder v.*  
26 *Virginia Hosp. Ass’n*, 496 U.S. 498 (1990), the Supreme Court specifically  
27 indicated that under the Boren Amendment, state Medicaid agencies were  
28 responsible for doing the required findings. (*Wilder*, 496 U.S. at p. 514, n. 11,

1 discussing the federal regulations, including a quote of Federal Register language  
2 stating that it is the “explicit statutory responsibility of the state agency to make its  
3 findings.”)

4 In *Folden v. Washington State DSHS*, 981 F.3d 1054 (9th Cir. 1992), the  
5 district court in the underlying case correctly noted that the procedural requirements  
6 of the federal regulation are satisfied if the state agency has engaged in a bona fide  
7 fact-finding process. *Folden* noted that states were free to create their own methods  
8 of arriving at the required findings and that the findings process does not require  
9 any special studies or written findings. It is sufficient if the state agency has  
10 considered, on the basis of some reasonably principled analysis, whether its  
11 payment rates meet the substantive requirements of the Boren Amendment.  
12 *Folden*, 981 F.3d. at 1057.

13 Therefore, this Court committed manifest error of law or fact in the Order  
14 granting Plaintiffs’ request for preliminary injunction when it concluded that the  
15 Legislature had a duty to consider “any of the relevant factors” prior to the  
16 implementation of AB 1183, even though the single state agency (Department) that  
17 is responsible for the administration of the Medi-Cal program conducted an  
18 analysis and determined the five percent payment reduction of AB 1183 complied  
19 with § a(30)(A).

20 **III. THE COURT COMMITTED MANIFEST ERROR OF LAW OR FACT BY**  
21 **CONCLUDING THAT THE LEGISLATURE FAILED TO HOLD ANY PUBLIC**  
22 **OR LEGISLATIVE HEARINGS PRIOR TO THE ENACTMENT OF AB 1183**

23 Plaintiffs made it very clear in their Motion for Preliminary Injunction that this  
24 is a “Supremacy Clause preemption case,” (*see* Plaintiffs’ Memorandum in Support  
25 of Motion for Preliminary Injunction, 2:11), therefore not raising any claim that a  
26 public process violation is at issue. The focus of the Supremacy Clause argument  
27 in this case was that AB 1183 was an obstacle to the Congressional intent of §  
28 a(30)(A), a funding statute. Understandably, Defendant did not believe it was  
necessary to dispute Plaintiffs’ misleading legislative history of AB 1183 in its

1 written opposition since this was a “Supremacy Clause preemption case.”  
2 However, at oral argument, Defendant did dispute Plaintiffs’ misleading public  
3 process characterization. Defendant requested that the Court take judicial notice of  
4 the legislative digest of AB 1183 and noted that AB 1183 had gone through the  
5 Legislative Budget Conference committee. As this Court is aware, this is a  
6 significant case with significant issues and the importance of having an accurate  
7 record should not be minimized.

8 This Court, nonetheless, committed manifest error of law or fact by accepting  
9 Plaintiffs’ inaccurate argument that the legislative history of AB 1183 demonstrates  
10 that the Legislature “did not in fact consider the relevant factors prior to passing AB  
11 1183,” *see* Order, 10:4-28, 11:1-2, and disregarding Defendant’s oral argument on  
12 this issue.

13 As argued previously, the Legislature does not have the duty to consider what  
14 the Court has termed the “relevant factors” prior to enacting AB 1183. But even  
15 assuming that it did, Plaintiffs have misled this Court to believe that the “relevant  
16 factors” could not have been considered as demonstrated by the legislative history.  
17 Specifically, the Order cites Plaintiffs’ contention, in part, that:

18 [o]n September 15, 2008, the bill was amended in the Senate  
19 so as to be at once turned into a trailer bill, on many different  
20 subjects . . . . All without **any public hearings or any**  
21 **hearing by any committee of the Legislature** . . . was passed  
22 shortly before midnight of the same day . . . by the Senate . .  
23 and was immediately passed by the Assembly before 2:08 a.m.  
of September 16, 2008 . . . .

24 *See* Order, 10:21-27; emphasis added.

25 Contrary to what the Plaintiffs’ counsel has led this Court to believe, the  
26 provisions that were included in AB 1183, and enacted into law in September 2008,  
27 did not magically appear in a few days. Rather, there were multiple hearings  
28 beginning in May 2008 related to proposals to modify the 10% payment reductions

1 mandated by Assembly Bill 5 (*see* Decl. of Katie Trueworthy, a true and correct  
2 copy attached as Ex. A to Defendant's Request for Judicial Notice filed  
3 concurrently herewith, *see* Legislative Counsel's Digest on AB 1183, a true and  
4 correct copy attached as Ex. B to Defendant's Request for Judicial Notice filed  
5 concurrently herewith.)

6 Clearly, as demonstrated by Ms. Trueworthy's accurate review of the  
7 legislative history of AB 1183, Plaintiffs' characterization of a midnight passage  
8 was misleading. As stated by Ms. Trueworthy, the Department's Deputy Director  
9 for Legislative and Governmental Affairs:

10 Although AB 1183 became the vehicle for the rate reductions,  
11 the Senate proposal and the Assembly proposal was released on  
12 May 30, 2008 in public hearings held by the Senate Budget  
13 Committee and the Assembly Budget Committee. Between  
14 May 2008 and September 2008, I am personally aware of  
15 DHCS employees providing information, technical assistance,  
16 and responses to numerous inquiries to legislative staff  
17 members concerning the various 5% and 1% rate cuts that were  
18 included in AB 1183. On May 30, 2008, I personally attended  
19 and observed portions of both the Assembly and Senate  
20 proceedings. These hearings were well attended by members of  
21 the public, lobbyists, governmental employees, and other  
22 stakeholders.

23 *See*, Trueworthy Decl., ¶ 5, attached hereto as Ex. B.

24 Therefore, this Court committed a manifest error of law or fact by accepting  
25 Plaintiffs' misleading and inaccurate argument that the legislative history of AB  
26 1183 demonstrated that the Legislature "did not in fact consider the relevant factors  
27 prior to passing AB 1183," *see* Order, 10:4-28, 11:1-2.

28 **IV. THE COURT COMMITTED MANIFEST ERROR OF LAW OR FACT BY  
FINDING IRREPARABLE HARM RELATED TO MULTI-SOURCE DRUGS**

The Order needs to be altered or clarified in regard to the irreparable harm  
allegedly caused by AB 1183 in relation to multi-source drugs. The evidence

1 presented by the Department demonstrated that even after the five percent payment  
2 reduction of AB 1183, the aggregate Medi-Cal reimbursement for multi-source  
3 drugs was 107% to 137% of pharmacy costs. (See, Defendant's Opposition to  
4 Plaintiffs' Motion for Preliminary Injunction, Ex. A-A, AB 1183 Analysis, pp. 8-  
5 12; Ex. C, Gorospe Decl., ¶¶ 9, 22.)

6  
7 The Order focused on single source drugs. As stated in the Order:

8 Indeed, the Gorospe declaration confirms that only 98-99  
9 percent, on average, of pharmacy costs for **single source drugs**  
10 will be compensated after the five percent rate reduction.  
11 Because many **single source drugs** are protected from  
12 competition by patents, there are no available generic  
13 alternatives.

14 *See* Order, 16:6-10; emphasis added.

15 If the Court concludes that anything less than 100 percent reimbursement of  
16 pharmacy costs causes irreparable harm as a result of potential equal access issues,  
17 the flip side of that conclusion is that anything above 100 percent reimbursement  
18 does not cause irreparable harm. Therefore, as demonstrated by the evidence  
19 presented by the Department, multi-source drugs should not be included in the  
20 Order. The Order's passing reference to the Wilson declaration that "with regard to  
21 generic drugs . . . the five percent rate reduction will cause pharmacies to operate at  
22 a loss or obtain only a very small gross profit on 39 percent of the top-selling  
23 generic drugs" (*see* Order, 13:18, 14:1-2), is not be enough to overcome the fact  
24 that Plaintiffs' reimbursement for multi-source drugs was 107% to 137% of  
25 pharmacy costs.

26 Moreover, if compensation of at least 100% of costs does not cause irreparable  
27 harm, the Court's Order should be modified to only enjoin anything more than a  
28 3% payment reduction for single source drugs.

Therefore, the Court committed manifest error of law or fact by grouping

1 single-source and multi-source drugs together in its conclusion on irreparable harm.  
2 If the Court is not inclined to alter or amend the Order on the basis that the  
3 Legislature does not have the duty to conduct the analysis, the Order needs to be  
4 altered so that the multi-source drugs are not affected by the injunction, or at the  
5 very least clarified as to why irreparable harm is shown as to AB 1183's effect on  
6 reimbursement for multi-source drugs. Additionally, the Order should be altered to  
7 only enjoin a payment reduction that exceeds 3% on single source drugs.

8 **CONCLUSION**

9 Defendant respectfully requests that the Motion to Alter or Amend, and  
10 Clarify the Court's Order granting Plaintiffs' request for preliminary injunction  
11 dated February 27, 2009, be granted.

12 Dated: March 13, 2009

Respectfully submitted,
