

Mr. Doar

Re: Local No. 38, et al. v. EEOC
Civil Action No. 46995

I am not sure I see why EEOC should "settle" - unless the settlement gets the same public disclosure as would a court decree. It seems to me very important to establish EEOC's right to access to union records, and this offer of settlement strikes me as a confession of error on the union's part.
