Re: Institutional litigation

Dear Ms. Hayden:

I apologize for not submitting to you the enclosed material earlier. We previously discussed the litigation in which we are presently representing the plaintiff class, all residents in the state DD/MR institution, Parrent, et al. v. Angus, et al. Enclosed are copies of the Second Amended Complaint, and Settlement Agreement. I also promised to send the latest annual report on the progress of the settlement, but have not yet received it.

In brief, since implementation began, we have identified three legitimate barriers to outplacement: (1) insufficient community provider capacity, (2) outpatient mental health treatment for people with mental retardation and mental illness, and (3) inadequate neurological support,. The defendants are addressing each, with lesser success on the latter.

Please let me know if there is any other information which we could provide to you.

Sincerely,

Robert B. Denton
Attorney at Law
