Opinion

MEMORANDUM OPINION AND ORDER

SHADUR, District Judge.

*1 Long after the time set for class members to conform to this Court's orders—orders that had set timetables and procedures in accordance with the constitutional requirements of notice to class members—plaintiffs' counsel seeks to reverse the exclusion of class members 5209 and 6497 from participation in the damages to be awarded to the class. This Court has considered the parties' submissions on that score, and it finds the showings that have been tendered on behalf of those class members to be insufficient to justify such relief. Accordingly the motion by plaintiffs' counsel is denied, and class members 5209 and 6497 will continue to be excluded from participation.
