Each of such renovated confinement areas or cells shall have a shower, toilet facilities, wash basin, mirror and a shelf or shelves for the purpose of holding personal effects of the prisoners. There will be recorded or noted on the "sick call form" the type of medication, if any, furnished to each inmate,

and whether or not that individual voluntarily took said medication. The form will then subsequently be filed in the nurse's office and be made available to all medical personnel, including the St. Louis County physician. Should an inmate indicate that his physical condition is such that the inmate believes he should see a medical doctor, such inmate shall be given the opportunity to do so by either being immediately transported to the emergency room, St. Louis County Hospital, or by examination by the medical doctor who shall be at the County Jail facility a minimum of three (3) times per week. The inmate shall indicate a desire to see a medical doctor by placing his name on the sick call form. The decision as to whether or not an inmate shall be seen by a doctor shall be made and determined by the inmate's own request and/or by the determination of the licensed practical nurse and/or the Director of Welfare or other senior supervisory personnel of the Jail. No correctional officer or guard shall, as a part of the sick call procedure, have authority to prevent an inmate from seeing either the doctor or the licensed practical nurse.
