Re: Doe v. Foti CA # 93-1227

Dear Allen:

As you know both parties signed a settlement agreement resolving the issues of classification, recreation and visitation in the above captioned litigation. As part of that resolution, Magistrate Judge Chasz stated that she would set up quarterly monitoring in order for plaintiffs to determine if the items agreed upon are in effect.

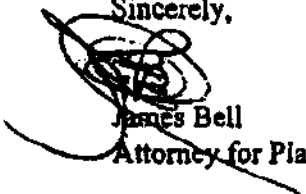

At this time, Magistrate Chasz has not written an Order memorializing the agreement. However, I would like you to let me know the current situation at Conchetta regarding the implementation of the settlement agreement.

Specifically, please indicate the current status re:

- a) the gymnasium;
- b) provision of additional time for recreation;
- c) the implementation of the classification policy;
- d) provision of visitation; and
- e) the provision of three meals daily.

I look forward to hearing an update from you soon. Thank you for your consideration in this matter.

Sincerely,

James Bell
Attorney for Plaintiffs
