

3. OLC, DHS, and the four DHS components have initiated searches for records responsive to Plaintiffs' FOIA requests.

4. TSA has completed its processing of Plaintiffs' request and released 35 pages of responsive records, withholding some information in those records pursuant to the FOIA's statutory exemptions from disclosure and referring some information to DHS for further review.

5. CBP has begun rolling production of non-exempt records, with the first production issued on July 20, 2017. Its search is ongoing, and the agency is still determining the volume of records at issue.

6. Searches conducted by USCIS and ICE have located approximately 6,000 pages and 3,500 pages of potentially responsive records, respectively. ICE is prepared to start rolling production of non-exempt records in August 2017. USCIS is not yet able to provide a timeframe upon which rolling production will begin, and is continuing to refine the scope of its search for potentially responsive records.

7. OLC's searches have located tens of thousands of pages of potentially responsive records. DHS is still determining the volume of records at issue.

8. Both with respect to OLC and with respect to DHS and its components, the parties are discussing possible means by which to narrow the scope of responsive records.

9. The parties agree that it is too early to determine whether Defendants will need to prepare *Vaughn* indices.

10. The parties respectfully propose that they file another Joint Status Report no later than September 5, 2017.

Dated: July 21, 2017
