Dear Ms. Dennehy:

2004 AUG 27 P 2:51

FEDERAL DISTRICT COURT
DISTRICT OF MASS

I apologize for bothering you again, but I am getting the run-around from all levels about progressing to the next stage of treatment. Ms. Martin, Dr. Appelbaum & Dr. Brewer are all probably unaware that your endocrinologist Dr. Maria Warth advised going ahead with plans for sex-reassignment surgery back on 3-9-04, followed up with a recommendation for rhino plasty and laryngeal shave on 6-15-04. When I asked Dr. Tutu who to see about these recommendations, he called me a liar, and called a nurse in to witness the conversation, claiming I was attributing lies to him in letters. I repeated the question, How do I proceed to the next phase if he claims he's been told he's "out of the loop" He said nothing can be done until Dr. Warth recommends it. When I told him she did, he again questioned my veracity, so I told him I had a copy and so did Judge Wolf. He then told me to write letters + ask Ms. Martin or Dr. Appelbaum, again stating "I'm out of the loop." When I told him that they referred me to him, he threw me out of his office. "Get out, I'm done with you."

He does not follow up on Dr. Warth's recommendations, and calls me a liar when I tell him it's in my chart. My year of living as a female is over, but none of the required adjunctive interventions have been done. Please see Dr. Warth's clinical notes of 3-9-04 and 6-15-04, which he has not read yet. All these procedures should be done already.
