## About Dockets

### About Dockets

You are viewing the case docket or case summary. Each Court level uses different terminology for this information, but for all court levels, it is a list of activities or documents related to the case. District and municipal court dockets tend to include many case details, while superior court dockets limit themselves to official documents and orders related to the case.

If you are viewing a district municipal, or appellate court docket, you may be able to see future court appearances or calendar dates if there are any. Since superior courts generally calendar their caseloads on local systems, this search tool cannot display superior court calendaring information.
